MAYO.	479.200	200 "	---	197 "	---
JUNIO.	472.200	32.200 "	520 "	1079.5 "	---

Cocos=coconuts, taguas=ivorynuts (used to make buttons), nispero is a tree that produces a latex called balata, a low-grade rubber, carey is turtleshell, and raicilla is a forest plant gathered to make the medicine ipecac.

The table shows products of the forest and sea exported from San Blas during six months.
