Character's Super Powers: Flight and Laser vision

How to show these powers on stage:
(no fly loft)

Flight

cape with a wind source
billowing/flowy cape shows
rapid air movement
⇒ can demonstrate flying

Laser Vision

Very reflective sunglasses so that the eyes can not be seen from the audience w/ a built in laser pointer on one of the sides of the glasses so that the actor can push a button and turn on a laser beam

Insignia

buttons

Costume has 4 parts:

1. Body suit - shiny gold material, black lace, matching gold buttons w/ insignia
2. Cape - black material, logo facing outward
3. Boots - leathery black material, form fitting
4. Glasses - reflective sunglasses, laser pointer

Difficulties:

- gold material is stretchy ⇒ hard to work with soln - patience
- getting the cape material to gather correctly at the buttons soln - careful measurements
- laser pointer on side of glasses + not too noticeable soln - find a good pair of glasses to use
- boots will be hard to make fabric not bunch in odd places
- gold material is see through so must put in a liner soln - liner of black material
- loop on back of cape may not be visible because of the cape gathering soln - gather on edges and not in the middle
